The Coming Railroad.

It will be seen by the action taken by the directory of the Pittsburgh, Wheeling & Kentneky Railroad Company, in their meeting at Wellsburg on the 6th, that they mean business. They direct an immediate survey and the preparation of a contract with the P. C. & St. Louis Railway Company. They appoint an executive committee and direct them to receive the subscriptions from Ohio and Brooke counties, to apply to this city for right of way and other facilities, to obtain right of way along the line so far as not al ready settled, to ask the Legislature to grant the coal under the river contiguous to the road to aid in its construction, and to advertise for proposals for the construction of the road as soon as surveys and other arrangements are made. The Supervisors at their meeting yesterday appointed a committee to confer with the executive committee and with the Supervisors of Brooke county.

RUFUS RIPLEY, the young clerk who ommitted snielde in the Bank of New York, complained eight months ago of a terrible pain in his head. Eminent physicians were unable to afford him any relief. The pain became so distressing that he finally shot himself through the heart. A post mortem examination re-vesled the fact that bony spikes were growing from the maide of his skull and piercing his brain. These spikes were as sharp as needles, and the doctor who was conducting the examination was scriously wounded by one of them. In all other respects, Mr. Ripley was a remarkably

A REMARKABLE WAR CLOUD .- The Pittsburgh Dispatch, under the caption in large, staring type "Spanish War Cloud," prints the following;

Responsibility for the following attaches itself to the Toledo (Ohlo) Blade? Soon after the train left Toledo one of the women of the party was usual character. In the Carter House, forty-three members present, the Speaker announced that the Eighth District Court injunc-tions would be answered by General Emory, who has ordered a regiment of troops from Louisville to New Orleans. The Times says the great outpouring of the people into Lafayette square Monday night, proved the deep scated dissatisfaction which exists against that fraudulent legislation by which the men who have a material and permanent interest in the State, have been for the time being plundered and deprived of the power of re-sistance, and that thereafter the two races will unite for mutual protection against the vampire assaults of merciless' officials.

The Bee says: "The contest now in pro ress between Gov. Warmoth and his op-onents in the Legislature has nothing of party character. It is not a contest between Republicans and Democrats, nor has race, color or previous condition any-thing to do with it. About 5 o'clock this evening, while Isa-dore McCormick and W. W. McCulloch, assistant seggeants at arms for the Carter House of Representatives, were attempting to arrest Matthews, a member, a scuffic ensued, in which Walter R. Wheyland was shot. He died an hour later in the Governor's parlor at the State House. Wheyland claims to represent the parish of Sabine, but had been expelled by the Carter faction. The supposition is that he was endeavoring to prevent the arrest of Matthews. C.L. T. D. Scott, a citizen who witnessed the shooting, says when the scuille commed between McCulloch and Wheyland a body of policemen were across from Dryade street. Wheyland simultaneously drew a pistol, when one of the policemen, not knowing Wheyland and doubtless thinking he was going to shoot, fired upon him. This is the first blood shed since the troubles commenced.
